Pioneers in Packaging

The STI Group develops and manufactures paper-based packaging solutions for the consumer goods industry that are both environmentally friendly and cost-effective. Innovation and sustainability are integral parts of the company's strategy and key factors in its success for its customers.

Packaging and displays for the consumer goods industry

15 of the world's top 20 consumer goods brands are clients of the STI Group. We are part of the critical supply chain for the consumer goods and pharmaceutical industries and manufacture products for the following sectors:

Food

Confectionery

Beverages

Pharmaceuticals & OTC

Cosmetics

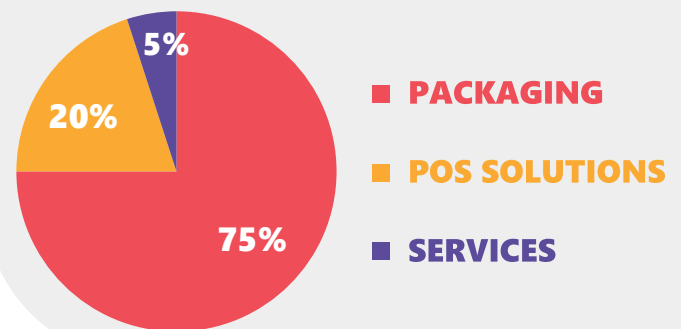

Toys

Non-food

E-commerce

Innovation

As pioneers in packaging, the STI Group is driving the development of sustainable packaging solutions. The focus is on approaches that combine environmental requirements with economic efficiency. New technologies and ways of thinking foster continuous product and process innovations – from reducing material usage and improving recyclability to substituting plastics. This results in solutions that enable sustainable and economically viable packaging concepts and set new standards for the industry.
